

January 6, 2009

To whom it may concern:

Our practice has had a working relationship with Peter Hoeft and Robb Majeski since October 2007 as they are the landlords of our present medical facility. They have been extremely accommodating and timely in addressing our needs at this facility.

Because of their responsiveness, when we looked at all options for expanding our practice facility, working with Peter and Robb was the preferred choice. These gentlemen have been very attentive in helping us with design details. They have ensured that our specific building requirements are communicated with the various contractors to ensure that we will not have design issues in the future. To date, the planning and building process has been an easy one with Peter and Robb exhibiting patience and expertise in all aspects of this project.

Western Wisconsin Urology plans to have a long term relationship with these gentlemen at our new location. We would highly recommend them as builders and landlords.

Sincerely,

Patricia R. Schultz
